

4.11 Software

Licences for a number of applications (e.g. Citavi, Visual Paradigm, ...) are made available via the computer centre.

The screenshot shows the website of the Universitätsrechenzentrum (University Computing Center) at TU Ilmenau. The page features a navigation menu at the top with links for 'Universität', 'Studium', 'Forschung', 'International', and 'Feedback'. Below the navigation is the logo and name of the 'Universitätsrechenzentrum' with sub-links for 'Start', 'IT-Services', and 'UniRZ - intern'. A search bar is located on the right side of the page.

In the main content area, there is a grid of service categories, each with a checkbox and a small icon. The 'Software' category is checked. Below this grid, a list of software licenses is displayed in a grid format. Each license entry includes a title, a brief description, and a 'Software' label with a small icon.

Call up the page [IT-Services](#) Open the intranet page and tick „Software“.

MATLAB

A campus licence for the MATLAB software is available at the TU Ilmenau. The programme itself as well as a licence key for academic use can be obtained from the [Website of the manufacturer](#).

[Was can I do with it?](#)

Computational Cabinets (RTK)

In the RTK (PC pools), the Computer Centre provides students with computers equipped with various software (Adobe products, MATLAB), some of which is otherwise available for a fee. The exact software equipment can be found on the Intranet ([RTK 2](#), [RTK 5](#), [RTK 6](#), [RTK 7](#)). For the use of the software by students outside of lectures, a [Antrag must be submitted to the UniRZ](#).

RTK 2, RTK 5 and RTK 6 are located in the computer centre. RTK 7 is located on the ground floor of the EAZ.
