Physics

Website Einschreibung

The physics practicals take place as scheduled in the 2nd and 3rd semesters. Each experiment lasts about 3 hours (plus preparation and follow-up).

Note:
You need a certificate card for the internships, which you can buy in the UniCopy can buy. Your grades are entered on this card. For this reason, you should not lose it, as otherwise you will have to have your grades entered again, which can be a lot of work.
